

An underwater photograph showing a clear blue ocean with numerous small, dark plastic particles floating throughout. A larger, translucent plastic bottle is visible in the upper right quadrant, partially obscured by the water's surface ripples. The overall scene conveys the theme of plastic pollution in the environment.

# SINGLE USE PLASTIC CULTURE

AN OBSERVATION OF DAILY PRACTICES, ENVIRONMENTAL  
IMPACT, AND SUSTAINABLE SOLUTIONS

# About *Me*

**My name is Nur Iffah Nadhirah  
binti Azmi**

I AM CURRENTLY AN UNDERGRADUATE STUDENT WHO IS PASSIONATE ABOUT VIDEOGRAPHY AND PHOTOGRAPHY, WITH A FOCUS ON EVERYDAY SCENES AND THE NATURAL SURROUNDINGS. I ENJOY USING MY FREE TIME TO CAPTURE SPONTANEOUS MOMENTS WHILE EXPERIMENTING WITH DIFFERENT PERSPECTIVES AND LIGHTING STYLES. THIS PROJECT PROVIDES AN OPPORTUNITY FOR ME TO EXPRESS MY CREATIVITY AND LEARN HOW VISUAL MEDIA CAN PLAY A ROLE IN PROMOTING ENVIRONMENTAL AWARENESS.

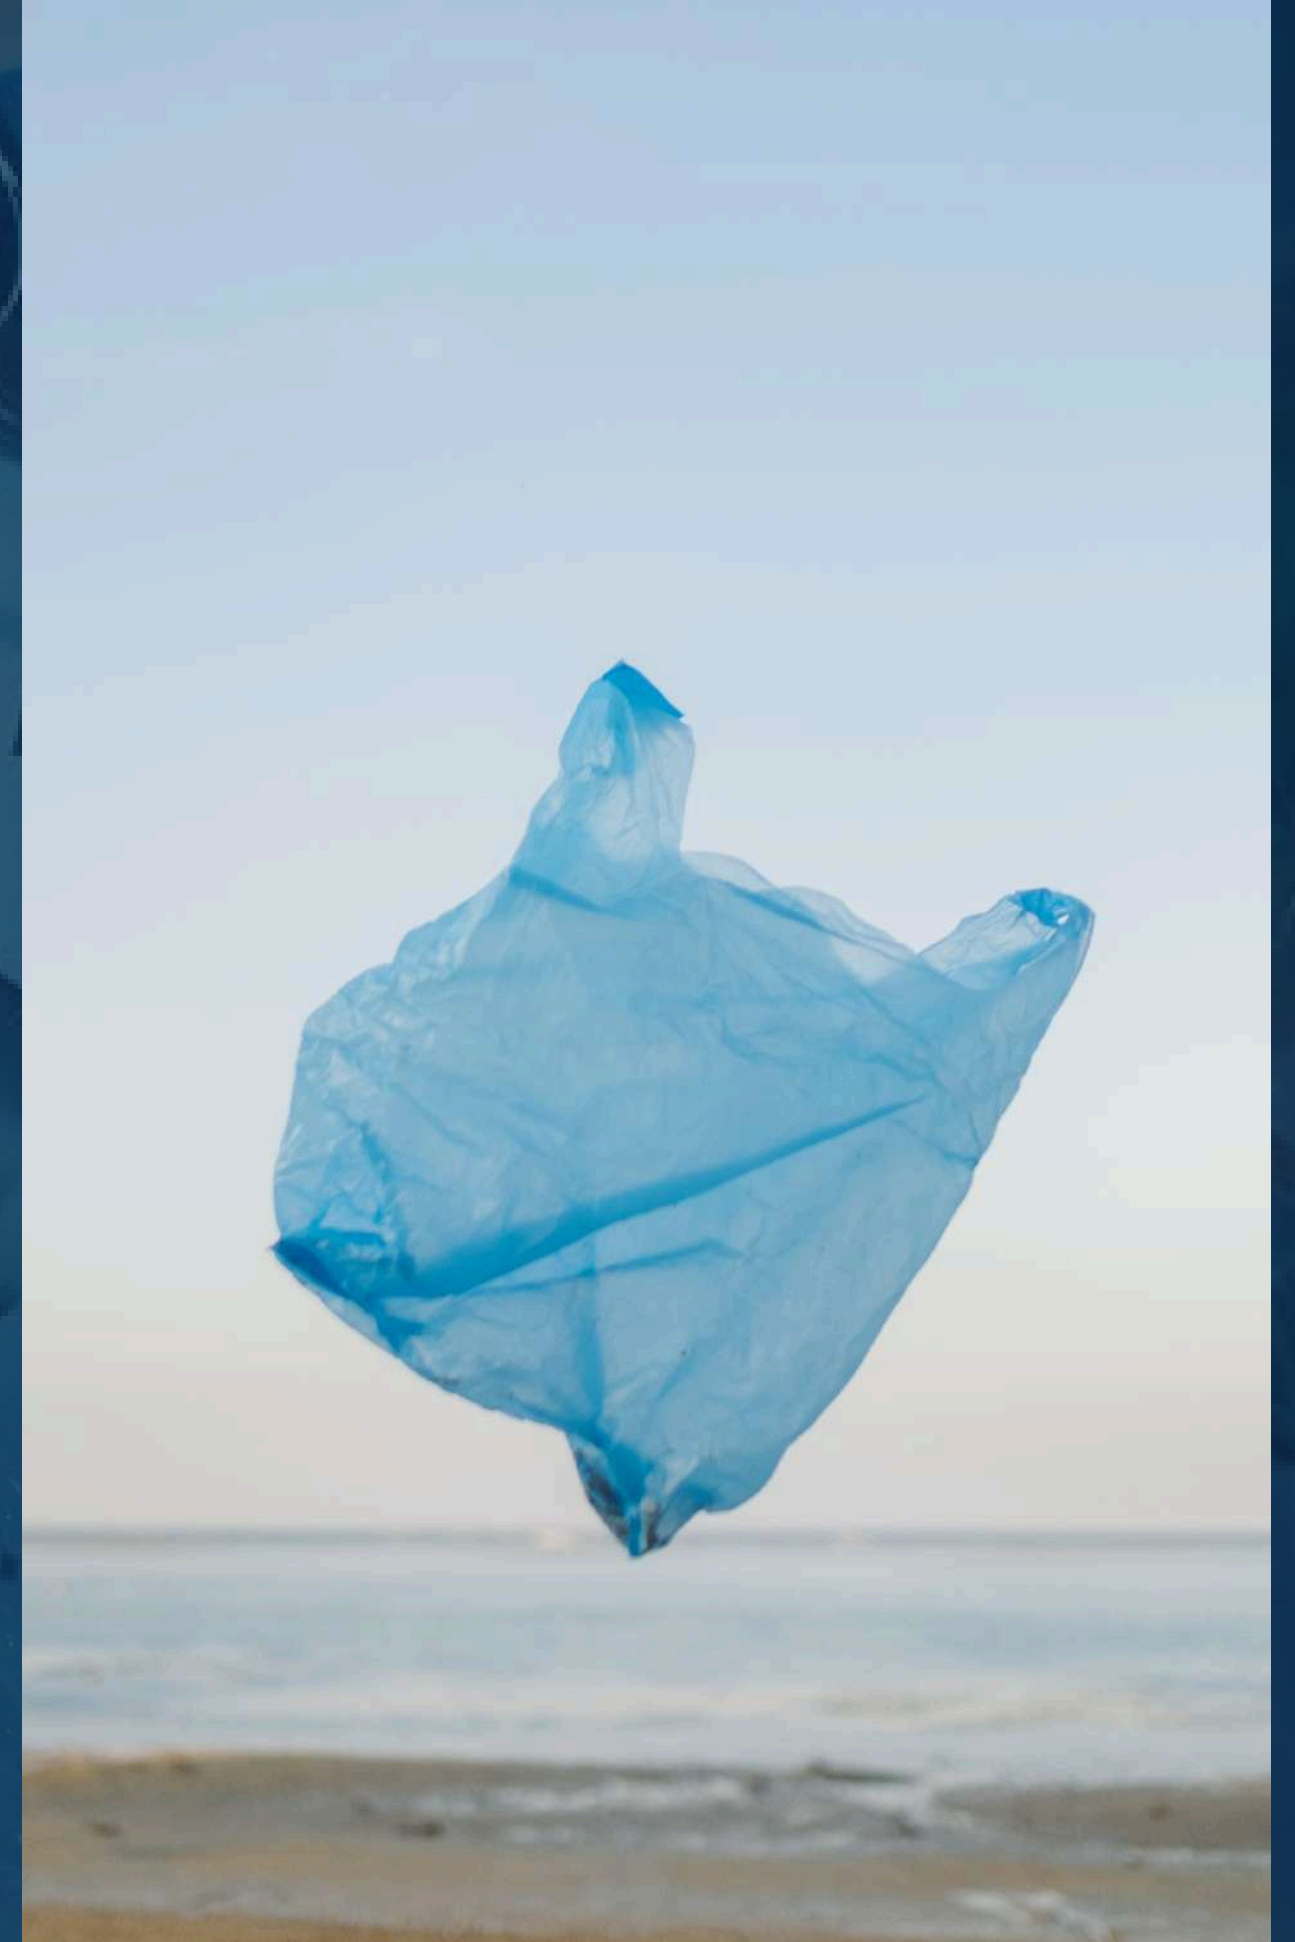

# Synopsis

# SYNOPSIS

THIS VIDEO FOCUSES ON THE WIDESPREAD PROBLEM OF SINGLE-USE PLASTIC AND ITS HARMFUL ENVIRONMENTAL IMPACT. THROUGH A SERIES OF SCENES FILMED IN PUBLIC SPACES LIKE CAFÉS AND FOOD STALLS, THE VIDEO SHOWCASES HOW OFTEN WE USE PLASTIC IN OUR DAILY LIVES AND THE NEGATIVE CONSEQUENCES THAT FOLLOW. IT ALSO PROVIDES SIMPLE, ACTIONABLE SOLUTIONS FOR REDUCING PLASTIC WASTE, EMPHASIZING THE POWER OF SMALL CHANGES THAT INDIVIDUALS CAN MAKE TO CONTRIBUTE TO A CLEANER ENVIRONMENT.

# Objective

# OBJECTIVES

**The goal of this video is to:**

- Raise awareness about the harmful effects of single-use plastics on the environment.
- Demonstrate the prevalence of plastic usage in public spaces and everyday life.
- Provide simple, actionable solutions, such as using reusable items and eco-friendly alternatives, to reduce plastic consumption.
- Inspire viewers to make small but impactful changes in their daily routines to combat plastic waste and promote sustainability.

The background of the slide is a close-up, high-contrast photograph of discarded plastic waste. It features several clear plastic bottles, some of which are crushed or broken, and numerous loose plastic caps. The entire scene is bathed in a deep blue light, creating a somber and environmental atmosphere. The word "Storyline" is superimposed over this background in a bright yellow, serif font.

# Storyline

# STORYLINE

## INTRODUCTION:

The video opens by showcasing common public settings such as cafés, food stalls, and shopping malls where single-use plastics are frequently used in daily activities. Items like plastic cups, straws, food containers, and shopping bags are visually highlighted to reflect how normalised and unavoidable plastic consumption has become in modern society. This opening scene aims to raise viewers' awareness of the widespread presence of single-use plastics and set the context for the video's focus on the culture of plastic dependency and its environmental impact.

# STORYLINE

## CONTENT:

### **Scene 1:** Understanding Single-Use Plastics

This scene introduces the concept of single-use plastics by displaying commonly used items such as plastic straws, food containers, and plastic bags. These objects are shown in everyday situations to help viewers recognise how frequently they are used and often discarded after a single use. The purpose of this scene is to build basic understanding and awareness of what single-use plastics are and how they have become a normal part of daily life.

### **Scene 2:** The Negative Impact of Plastic Waste

This scene focuses on the environmental consequences of excessive plastic usage. Visuals include overflowing trash bins, plastic litter scattered in natural environments, and plastic pollution in water sources. These images highlight how improper disposal and overconsumption of plastic contribute to pollution, harm ecosystems, and threaten wildlife. The scene aims to create a sense of concern by showing the real and visible damage caused by plastic waste.

# STORYLINE

## CONTENT:

### **Scene 3:** Real-Life Observations

The final scene presents real-life observations in public spaces, such as a busy café where people are using plastic cups and containers, as well as public trash bins filled with plastic waste. This scene connects the earlier information to everyday human behaviour, showing how individual actions contribute to the larger plastic waste problem. It reinforces the message that plastic pollution is not a distant issue, but one that occurs in daily life and public environments.

### **Scene 4:** Solutions, What We Can Do

The last scene introduces practical solutions to reduce plastic usage. Visuals include people using reusable water bottles, carrying eco-friendly bags, and properly disposing of waste into trash bins. This scene encourages viewers to adopt sustainable habits in daily life, demonstrating that small changes, like choosing reusable items and disposing of plastic responsibly, can significantly reduce plastic pollution. It aims to inspire positive action and show that everyone can contribute to protecting the environment.

# STORYLINE

## ENDING:

The video concludes by encouraging viewers to take responsibility for reducing plastic use. It reminds us that small actions, like using reusable items, can help protect the environment, prevent harm to animals, and keep beaches and public spaces clean. The message emphasizes that change starts with each of us, and by acting today, we can create a healthier, cleaner planet for everyone.

# Storyboard

# STORYBOARD

## SCENE 1: INTRODUCTION

**Number of Scenes:** 3

**Duration:** 24 seconds

**Camera Shot:** Wide shot of a café. Close-up shots of plastic cups, straws, and bags.

**Camera Angle:** Eye-level shot and shoulder level of people using plastic products (cups, straws, plastic bags).

**Camera Transition:** Cut to close-up of a plastic cup being discarded, followed by the next scene.

**Props:** Plastic cups, plastic straws, plastic bags.

## Scripts:

"In our daily lives, single-use plastic is everywhere"

"From the coffee cup we drink from to the plastic bag we use to carry our groceries"

"Plastic has become a part of our daily lives"

**Video Effects:** Film flare, newspaper page, tear away, cute outline, blink, comparison, tilt slide, and cursor flip transitions to the next scene.

**Audio/Music Background:** Motivational Cinematic and the voiceover.

**Location:** A local café, food court and mall (boutique)

# STORYBOARD

## Single-Use Plastic Culture

### PART 1: INTRO – SET THE CONTEXT

Café or food court

Plastic cup with straw

Plastic bag from store

# STORYBOARD

## SCENE 2: WHAT IS SINGLE-USE PLASTIC?

**Number of Scenes:** 2

**Duration:** 33 seconds

**Camera Shot:** Close-up of plastic straws, food containers, and plastic cups.

**Camera Angle:** Eye-level shot, focusing on individual items like plastic straws, plastic cups, and food containers.

**Camera Transition:** Cross-dissolve to the next scene

**Props:** Plastic straws, food containers, plastic bags.

### Scripts:

"Single-use plastic includes items that are used once and then discarded, such as plastic straws, food container, cups, and bags."

"These items may seem harmless, but they have a significant environmental impact."

"Used briefly, discarded immediately."

"But where does all this plastic go?"

**Video Effects:** Film flare, newspaper page, tear away, cute outline, blink, comparison, tilt slide, and cursor flip transitions to the next scene.

**Audio/Music Background:** Motivational Cinematic and the voiceover.

**Location:** A local café, public spaces

# STORYBOARD

## PART 2: WHAT IS SINGLE-USE PLASTIC?

Plastic Straw

Takeout Container

Plastic Bag

# STORYBOARD

## SCENE 3: NEGATIVE IMPACT OF PLASTIC WASTE

**Number of Scenes:** 3

**Duration:** 31 seconds

**Camera Shot:** Wide shot of overflowing trash bins in a public space, followed by close-up shots of plastic waste in the environment

**Camera Angle:** Low-angle and eye level shot of overflowing trash bins and plastic in nature to emphasize the size and scale of the issue.

**Camera Transition:** Fade to next scene with real-life observation shots.

**Props:** Plastic waste, trash bins, discarded plastic bags, plastic bottles.

## Scripts:

"Most plastic ends up as waste and takes hundreds of years to decompose."

"Improper disposal causes pollution that harms both land and water, making this problem visible everywhere."

**Video Effects:** Film flare, newspaper page, tear away, cute outline, blink, comparison, tilt slide, and cursor flip transitions to the next scene.

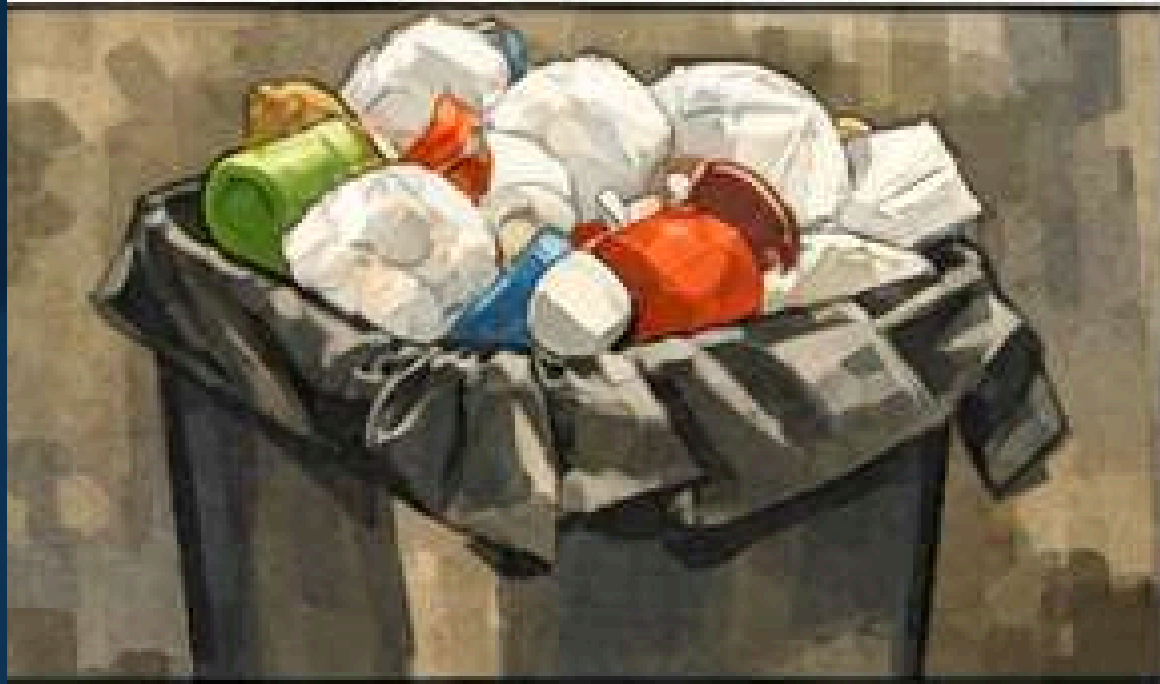

**Audio/Music Background:** Dramatic sound and the voiceover.

**Location:** Public spaces

# STORYBOARD

## PART 3: WHY IS IT A PROBLEM?

Overflowing trash bin

Littering in nature

Pollution in water

# STORYBOARD

## SCENE 4: REAL-LIFE OBSERVATION – FREQUENT PLASTIC USE

**Number of Scenes:** 4

**Duration:** 52 seconds

**Camera Shot:** Medium shot, eye level shot of people in public spaces

**Camera Angle:** Low-angle, Eye level shot and High-angle shot capturing the bustling activity in public spaces, focusing on people's plastic usage.

**Camera Transition:** Wipe transition to the next scene where solutions are introduced.

**Props:** Plastic bags, cups, straws.

## Scripts:

"Plastic waste is a part of our daily routine. We see it everywhere, from food courts to street corners, leading to an overwhelming buildup of plastic waste."

"Observed in many public spaces."

**Video Effects:** Film flare, newspaper page, tear away, cute outline, blink, comparison, tilt slide, and cursor flip transitions to the next scene.

**Audio/Music Background:** Dramatic sound and the voiceover.

**Location:** Public space

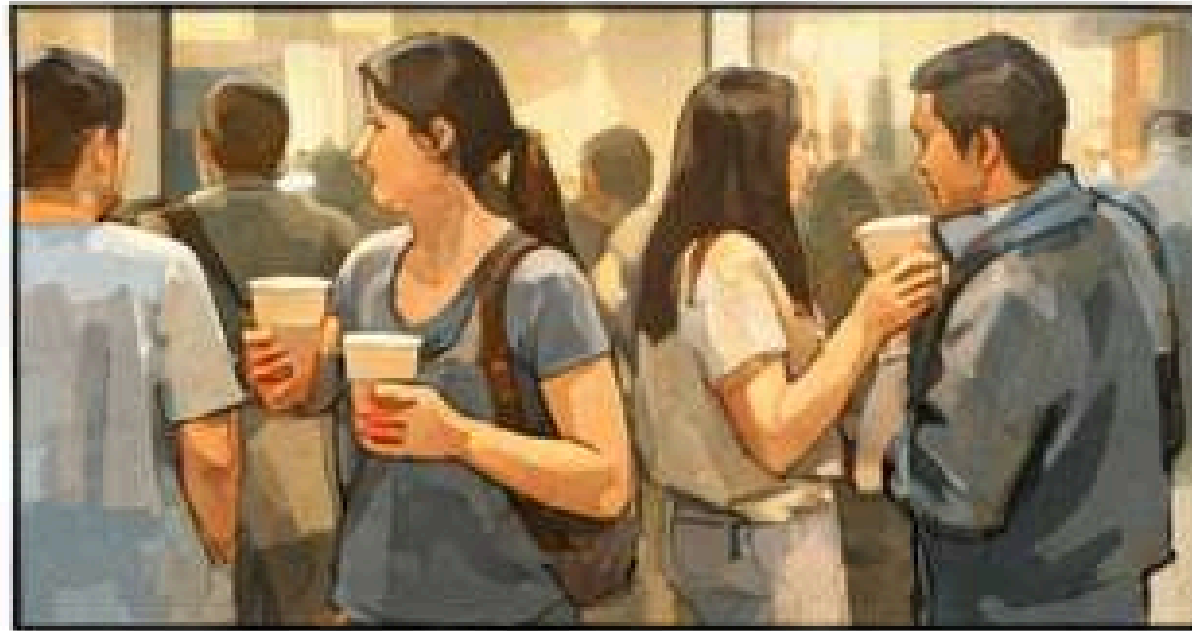

# STORYBOARD

## PART 4: REAL-LIFE OBSERVATION

Busy cafe scene

People with plastic cups

Trash bins in public

# STORYBOARD

## SCENE 5: SOLUTIONS – REUSABLE ITEMS

**Number of Scenes:** 3

**Duration:** 24 seconds

**Camera Shot:** Close-up shots showing reusable bottles, cloth bags, and proper use of a trash bin.

**Camera Angle:** Over-the-shoulder shot of someone using a reusable water bottle.

Hip-level shot of cloth bags and a trash bin.

**Camera Transition:** Wipe transition to the next scene where solutions are introduced.

**Props:** Reusable water bottle, cloth shopping bag, and trash bin

## Scripts:

"Small changes can make a big difference. By choosing reusable items like bottles and bags, and by disposing of rubbish properly, we can reduce our reliance on plastic and help protect the planet."

"Change starts with awareness. Small actions matter."

**Video Effects:** Film flare, newspaper page, tear away, cute outline, blink, comparison, tilt slide, and cursor flip transitions to the next scene.

**Audio/Music Background:** Hopeful and the voiceover.

**Location:** Public space

# STORYBOARD

## PART 5: SOLUTIONS – WHAT CAN WE DO?

Reusable Water Bottle

Eco-Friendly Bag

Say No to Straws

# STORYBOARD

## SCENE 6: CALL TO ACTION – ENCOURAGE CHANGE

**Number of Scenes:** 3

**Duration:** 67 seconds

**Camera Shot:** Wide Shot.

**Camera Angle:** Eye Level & Bird's Eye

**Camera Transition:** Fade to black to signal the end of the video.

**Props:** Reusable water bottle, cloth shopping bag,

## Scripts:

"Let's commit today. Reducing our plastic use is a small step toward a cleaner, healthier planet and cleaner beaches for everyone."

"We don't want our beaches to end up covered in plastic trash."

"We don't want more animals suffering because of our actions."

"Change begins with us, let's use reusable items starting today!"

**Video Effects:** Film flare, newspaper page, tear away, cute outline, blink, comparison, tilt slide, and cursor flip transitions to the next scene.

**Audio/Music Background:**

Hopeful and the voiceover.

**Location:** Public space

# STORYBOARD

# Conclusion

# CONCLUSION

**IN CONCLUSION, SINGLE-USE PLASTIC CULTURE HAS BECOME A SERIOUS ENVIRONMENTAL ISSUE DUE TO ITS CONVENIENCE-DRIVEN USAGE AND IMPROPER DISPOSAL.**

**THROUGH THIS VIDEO PROJECT, THE IMPACT OF PLASTIC WASTE IS CLEARLY HIGHLIGHTED USING REAL-LIFE OBSERVATIONS AND SIMPLE VISUAL STORYTELLING. BY ADOPTING REUSABLE ALTERNATIVES AND REDUCING UNNECESSARY PLASTIC CONSUMPTION, INDIVIDUALS CAN PLAY AN IMPORTANT ROLE IN PROTECTING THE ENVIRONMENT. THIS PROJECT DEMONSTRATES THAT AWARENESS AND SMALL BEHAVIOURAL CHANGES CAN CONTRIBUTE TO A MORE SUSTAINABLE FUTURE.**
